

Product Release Notice

RTX64 4.5.4

General Availability Release Date

September 22, 2025

Product Overview

RTX64 4.5.4 is the latest 64-bit version of IntervalZero's market-leading hard real-time software products. This Runtime release provides usability improvements, resolved issues, and contains all resolved issues from RTX64 4.5.1, RTX64 4.5.2 and RTX64 4.5.3.

Issues Resolved

- Resolves an incompatibility with Windows 1124H2 OS Build 26100.5074. (18582)
- Resolves instability issues with the starting and stopping of the Virtual Network. (18020)
- Resolves an issue where Windows Event Viewer displayed an internal information message *End of HalRtxInit!* When the RTX64 Subsystem was starting. (18549)

Availability

RTX64 4.5.4 Runtime is available only as a full Runtime installer or a full Merge Module beginning September 22, 2025, through Partners and by contacting Sales: sales@intervalzero.com.

We look forward to any comments and feedback. If you have any recommendations, would like to be included in the monthly KB email updates, or wish to suggest any product enhancements, please contact Product Management at: productmanagement@intervalzero.com.
